Smart Connected Support™ thingworx® powered

PERFORMANCE ADVISOR FOR CREO

After successfully connecting to the Performance Advisor and Proactive Services, you will start to receive Automated Support Recommendations.

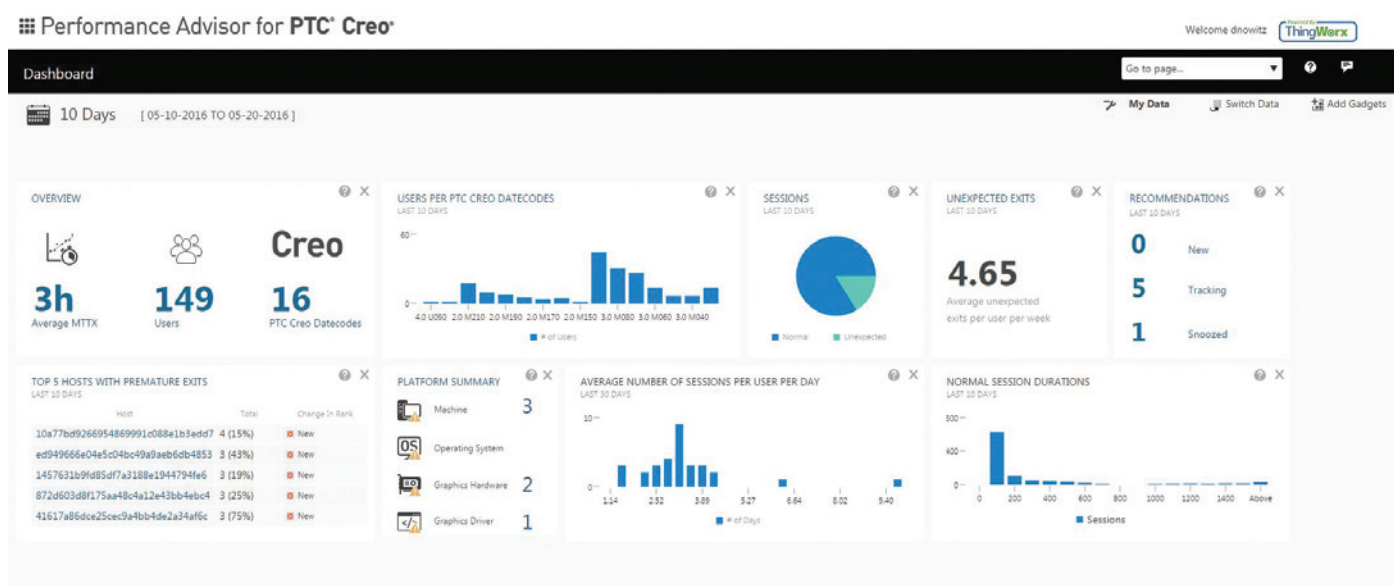

Value to Customers

- Efficient use of resources
- Save time
- Lower administration
- Higher productivity

An easy-to-use online dashboard provides insight into important performance and usage metrics.

Key benefits to you include:

- Receive Support Recommendations for increased system stability
- Learn about potential issues before they happen so you can avoid them
- Better manage your entire environment
- Ensure full utilization of capability and functionality to improve product design
- Increase productivity to meet project deadlines and improve time to market
- Optimize IT Resources to change from “firefighting” to business process improvement
- Compare system configuration and information against peers

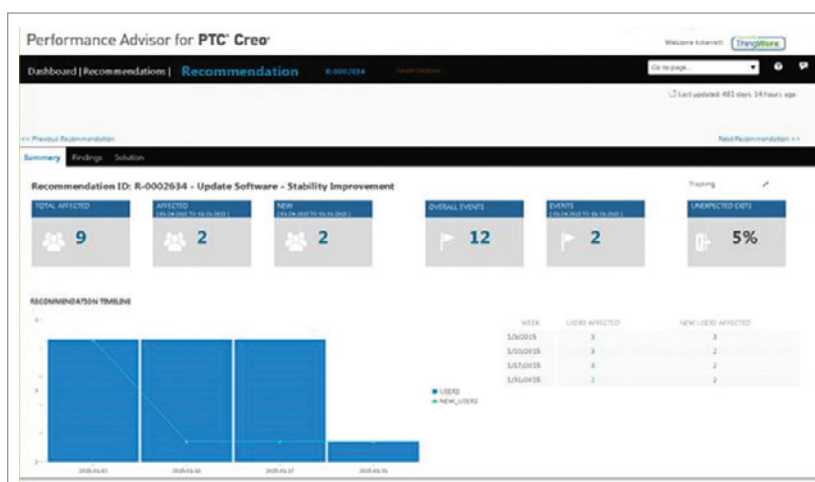

The Performance Advisor for Creo leverages the ThingWorx IoT platform to give you unprecedented visibility into your Creo-related hardware and software environment.

Support Recommendation can be viewed directly on the Performance Advisor Dashboard where a clear Impact Assessment will be provided along with the specific Corrective Action to be taken:

Where you find them:

TOP 5 RECOMMENDATIONS LAST 10 DAYS			
ID	Recommendation	Impact	Complexity
R-0002237	Update Software - Stability Improvement		Easy
R-0002243	Update Software - Stability Improvement		Easy
R-0002240	Update Software - Stability Improvement		Easy
R-0002242	Update Software - Stability Improvement		Easy
R-0002239	Update Software - Stability Improvement		Easy

Analyze Impact:

Performance Advisor for Creo is a great tool for identifying and compiling the data that management needs to **make decisions about software upgrades and new maintenance releases.**
